

VINIT KUMAR RATHORE

Full Stack Developer | MERN Stack | Python & FastAPI | React Native

+91-9648201277 | vinitrathore1277@gmail.com | github.com/vinitrathore | [Portfolio: vinitrathore.netlify.app](https://vinitrathore.netlify.app) | India

PROFESSIONAL SUMMARY

Full Stack Developer with 3+ years of production experience building web and mobile applications using React.js, Node.js, Express.js, MongoDB, Python, FastAPI, PostgreSQL, and React Native. Experienced in healthcare SaaS, hospital information systems, e-commerce, OCR/mobile applications, REST APIs, real-time features, and AI-powered applications. Delivered 25+ features across major and minor projects.

TECHNICAL SKILLS

Frontend: React.js, React Native, HTML5, CSS3, JavaScript (ES6+), Tailwind CSS, Redux

Backend & APIs: Node.js, Express.js, RESTful API design, Python, FastAPI, microservice-style service integration

Database: MongoDB, Mongoose, PostgreSQL, Supabase, Firebase

AI / Mobile / Real-Time: LLM integration, conversational AI, OCR, Android, Expo, real-time chat & data applications

Languages: JavaScript, Java, Python

Tools & Practices: Git, GitHub, Agile workflows, MVC architecture, VS Code, Android Studio

WORK EXPERIENCE

MERN Stack Developer — DevLogix

Oct 2025 – Present

- Design and maintain full-stack web applications using React.js, Node.js, Express.js, and MongoDB, translating product requirements into scalable technical solutions.
- Build responsive, performant UI components with React and CSS, ensuring cross-browser compatibility and a consistent user experience.
- Develop and integrate RESTful APIs and real-time features in collaboration with cross-functional product and engineering teams.
- Apply best practices for code quality, version control (Git/GitHub), and Agile delivery, contributing to reliable, production-ready releases.

MERN Stack Developer — InfoDeltaSys

Oct 2023 – Oct 2025

- Delivered 25+ features across 2 major and 8 minor projects on the MERN stack, directly improving product functionality and user experience.
- Built and integrated scalable RESTful APIs and real-time features, working closely with cross-functional teams from requirements through deployment.
- Implemented responsive, cross-browser-compatible UI components using React and CSS.
- Followed and helped enforce best practices for code quality, Git-based version control, and Agile workflows across the team.

SELECTED REAL-WORLD PROJECTS

Hospital Information System (HIS) — Clinical Management Platform

React Native, Expo, React, PostgreSQL

Developed a comprehensive HIS/EMR platform supporting patient check-in, real-time triage queues, doctor consultation schedules, prescriptions, and clinical workflows. Implemented intelligent prescription extraction using OCR to digitize clinical data entry. Live: hishospital.thedevlogix.com

HopeCare — Healthcare Management SaaS

React, Express.js, PostgreSQL, Supabase

Built a full-stack healthcare management platform for patient records, appointments, prescriptions, doctor schedules, real-time charting, and clinical coordination. Developed frontend workflows and backend API integrations for healthcare operations. Live: hopecare.swiftcharting.com

Xtract — Screen Text & OCR Extractor

React Native, Android, OCR

Published Android application on Google Play for extracting text in real time from phone screens, images, and live camera feeds using on-device OCR. Live: [Google Play](https://play.google.com/store/apps/details?id=com.xtract)

Orejewels — E-Commerce Platform

React, Node.js, Express.js, Razorpay

Developed a luxury jewellery e-commerce platform with dynamic product/pricing workflows, OTP authentication, and online checkout. Integrated frontend, backend APIs, authentication, and payment gateway functionality. Live: orejewels.in

Shreddersbay — Resale E-Commerce Platform

React, Firebase, REST APIs

Developed a marketplace where users can buy and sell pre-owned products and connect with other users. Implemented responsive React interfaces and Firebase/REST-based application functionality.

Infodeltasys — Corporate Website

React, UI/UX, SEO

Designed and developed the corporate website and landing pages, implementing responsive UI, modern frontend architecture, and SEO-focused improvements. Live: infodeltasys.com

PrepGinni — Exam Preparation Platform

Remix, Node.js, MongoDB

Developed an educational platform providing practice questions, mock tests, and study materials for competitive-exam preparation.

ADDITIONAL PROJECTS

CodePulse — AI Code Reviewer — AI-powered code review application using an LLM layer with Python FastAPI backend and React.js frontend.

Vani — AI Language Learning Assistant — AI-driven language learning assistant with conversational AI features using FastAPI and React.js.

Helper — Real-Time Chat Application — Real-time chat application developed using Java and Android Studio during SHEF internship.

Farket — Share Market Price Prediction App — Application for displaying and predicting real-time share market prices during SHEF internship.

EDUCATION

Master of Computer Applications (MCA) — Dr. A.P.J. Abdul Kalam Technical University (AKTU) | 2024–2026 | Completed

Bachelor of Computer Applications (BCA) — University of Lucknow | 2020–2023 | 77%

INTERNSHIPS & TRAINING

- **Advanced Java & Android Development Internship** — SHEF (Feb–Jun 2023): built Helper (real-time chat) and Farket (share market app).
- **Android Development Summer Training** — MSCC (Jun–Aug 2022): fundamentals of Android Studio and mobile development.

ADDITIONAL

Languages: English (Professional), Hindi (Native) **Interests:** Bike Riding, Badminton, Music
